Xanthe Milton : Eat Me!: The Stupendous, Self-Raising World of Cupcakes and Bakes According to Cookie Girl before purchasing it in order to gage whether or not it would be worth my time, and all praised Eat Me!: The Stupendous, Self-Raising World of Cupcakes and Bakes According to Cookie Girl:

1 of 1 people found the following review helpful. Not bad, quantities are double, no cupcake frosting ideasBy sugarspooncakesAfter checking Xanthe Milton's youtube videos on how to frost cupcakes I expected that her book would have the same techniques for frosting and more decorating ideas. The recipes are very good and I love the fact that she is using Greek yogurt in cupcakes. I haven't tried the yogurt recipes but will soon. I made the chocolate kisses recipe and the quantities for the ingredients yield more than the suggested serving 24 cookies. So if your trying her

recipes I would say half the ingredient quantities. Otherwise a nice book to try new flavors and new ingredients. Enjoy!!1 of 1 people found the following review helpful. Didn't like the presentationBy Nouf subahLack of photos again and the presentation overall is not as i thought it will be. The recipes are not as I expected. most of the recipes can be found in the internet and doesn't have something different than the other books. i Regret that i bought it>1 of 1 people found the following review helpful. Delicious!By Karen PachI have been experimenting with cupcakes for the past two years, and have purchased several cupcake books. "Eat Me!" is a fun read with amazing English recipes. The red velvet cakes came out amazing and were the big hit on New Year's Eve 2012. I highly recommend this book.

French Toast Cupcakes, Pistachio Lime Cupcakes, White Russian Cupcakes, Lavender Heart Cookiesmdash;the wonderful world of Cookie Girl combines fairytale themes with the glamour of cocktail hour
