**Jenny Keller : Eat More Dessert: More than 100 Simple-to-Make Fun-to-Eat Baked Goods From the Baker to the Stars** before purchasing it in order to gage whether or not it would be worth my time, and all praised Eat More Dessert: More than 100 Simple-to-Make Fun-to-Eat Baked Goods From the Baker to the Stars:

1 of 1 people found the following review helpful. beautiful pictures galoreBy Ariell YoungThis dessert book is just what I needed--Easy to follow, full of ideas and last but not least, beautiful pictures galore. Jenny draws you in from the first pages of the book where she describes her cute little family and her love for baking. She then guides you through the various seasons with her stunning desserts and dessert tables, and as I mentioned before, lots of pictures! Jenny definitely has a knack for putting together delicious desserts and adorable dessert tables whether it be a vintage inspired party or a glamorous affair. Jenny has inspired me to continue baking and has got my creative juices flowing once again. If you are looking for ideas for a wedding, baby shower, adult or child's birthday party, then this the the book to for you. I'm looking forward to using many of Jenny's techniques and inspirations for a few parties of my own.0 of 0 people found the following review helpful. Great ideas for Dessert tables and more!By JenniferI by luck

stumbled across Jenny's blog and saw that she had a book coming out. I pre-ordered it in hopes it'd give me some new ideas. This book has TONS of ideas and recipes. The dessert tables are amazing to look at! She has 10 different themes with at least 10 recipes/ideas to go with each of them. While you may have seen some of the things, rose cakes and ruffle cakes, her presentation makes them unique with her own twist. Her recipes are simple, most start with a box cake mix and pudding, yet they look like you spent hours decorating them! The pictures are really inviting and will make you want to try them all! I really love that she uses buttercream on her cookies instead of royal icing. With that said, her buttercream does have shortening and margarine in it which I know can put some people off, but I honestly think it'll be worth a try. I'm not a shortening in my icing person, but I am going to try it because she makes it look that good. This is a good book to have whether or not you're a baker because anyone can get use from it and/or inspiration from it. It's definitely worth it! 3 of 3 people found the following review helpful. Perfection with EaseBy LindsayI was so excited when Jenny's book came out! I have called on her for years to bake for my kids birthday parties and other gatherings and I have never been disappointed! Not only are they the most adorable and beautiful treats, but they are soooooo delicious as well. Her book is not only beautifully done, but she breaks it down in such simple steps so any baker at any level can master her treats. I am always looking for a dessert to take to parties and now with the help of Jenny, she has given me so many more adorable and delicious options. I promise you won't be disappointed!

Star-Quality Baked Goods the Easy Way Jenny Keller, creator of JennyCookies.com and baker to the stars, is best known for her amazing dessert tables she makes for celebrity parties. The secret is she makes it simple with batch recipes and by doctoring boxed cake mix to easily bake a whole table full of treats.
