**Nita Mehta : Eggless Cakes Muffins** before purchasing it in order to gage whether or not it would be worth my time, and all praised Eggless Cakes Muffins:

0 of 0 people found the following review helpful. Three StarsBy Angelina de PinedaGood book but not to many cakes I eat inside.

We are so used to thinking of eggs as basic requirements for cakes that some people can hardly believe you can omit them and still get outstanding and delicious results. I hope this book, and your participation, will go a long way in establishing the emergence of a new genre of cakes called Eggless Cakes. While experimenting to create these recipes,

I was not looking for 'egg substitutes'. In fact I took a completely new approach - and came up with a combination of many unusual ingredients and techniques. So go ahead and bake that Eggless Cake today!
