**Eileen Yin-Fei Lo : Eileen Yin-Fei Lo's New Cantonese Cooking** before purchasing it in order to gage whether or not it would be worth my time, and all praised Eileen Yin-Fei Lo's New Cantonese Cooking:

0 of 0 people found the following review helpful. A Must, If You're a Fan of Cantonese CookingBy Bill HuffThis book contains authentic Cantonese dishes! I grew up with wonderful Cantonese food because my father had a taste for gourmet food. He used to take us to the best Chinese restaurants in town and pointed out who were the best Cantonese cooks. So when I moved away from these influences after I married, I certainly missed those good Chinese restaurants. Then one day, I came across this book. I don't remember how I was introduced to it anymore because it was so long ago. Recently, though, I've given a copy of it to each of my seven children, who are all gourmet cooks and who appreciate good cook books. I don't know about their copies, but I can tell you that with my cookbook, certain pages have become pretty worn down because I use it to create my favorite dishes all the time. However, the combinations of ingredients -- and the steps to make the dishes -- are so complicated that I can't memorize the recipes like I can Western ones.2 of 2 people found the following review helpful. A Rare FindBy J. CroweBooks on Cantonese cooking are not as numerous as I would like. I have a number of books about Chinese cooking but none on Cantonese style. The writers tips on cooking rice where interesting and her recipes included many I have not found in other cook books. This is not a new release so I am glad I found it for my library.1 of 1 people found the following review helpful. I am Cantonese too!By Jackie MeyerI purchased 3 copies and gave them to my grandchildren. The author shares the same roots as I , and I appreciate the background stories that come with many of her recipes. I also

purchased "My Grandmother's Chinese Kitchen" for the same reason.
