Not Simple PrepBy CustomerGave this book to my son, it reads well, the recipes sound delicious, but are prep/ingredient intensive. He might use it for ideas, but can't be sure that he'll follow the recipes closely. Might just make him hungry so that he heads out to a sandwich shop.1 of 1 people found the following review helpful. Not your Usual PBBy C. Schaefer'sThese sandwiches are works of art. I don't come anywhere near having the ingredients to make any of them. They require a plan and a trip to several specialty shops, which are in short supply around here. If you could create (maybe with a couple of friends) one of these sublime sandwiches a month, I'm sure it would be worth the effort and a

great accomplishment. They make my mouth water to read the recipes. I'm planning a trip to New Orleans right now and I know just the place in The French Market to buy the best Fried Shrimp Po'Boy.
