Edelman The dishes found in this volume have little or nothing to do with the overly sweetened, heavily breaded versions of Cantonese food familiar to most Americans. The presentations as shown in the photographs are elegant, but the recipes themselves are close to what a good Chinese cook might prepare at home- dishes like fried chicken wings with oyster sauce, stuffed bean curd, braised celery, sweet-and-sour whole fried fish, shrimp and green peas,

cabbage cabbage pancake, and a personal favorite, described as "fry shrimp balls." You won't find many, if any, familiar dishes here. But if you're looking for a bit more adventure in your Chinese cooking, or if you've spent time traveling and eating in China, this book is a useful source of real Chinese cooking. 0 of 0 people found the following review helpful.
