Gorgeous photography, inspiring and delightful to viewBy Liz968I am astounded at the creativity displayed in the pages of this book. Some of the food show within its pages are indeed "too lovely to eat". I never cease to be amazed at the creativity that some people have in preparing a dish and having the level of artistry to make it look so beautiful, whimsical and appealing!

You might not want to eat them, but you'll love looking at these charaben.
