Felt Biscuits is a Rock Star Crafting Book!By Mary H.As a fiber artist I work in multiple mediums, but I have never made my own little food plushies and was not sure where to begin. What a delightful book this is, with it's easy-to-follow steps and colorful results! It makes me feel quite British and ready for a visit by the Queen herself! Now of I can just convince my cat these are not toys, I will be all set for a delightful British teatime (without the calories!). Thank you, Ms. Gresty, for providing such a fun, happy past-time.

A full-colour, step-by-step, photographic guide to making classic British biscuits and a biscuit tin from felt. Welcome to the fabulous world of felt biscuits! This book has been designed to show you the stitches and steps needed to sew a set of biscuits and a biscuit tin out of sheets of felt. The sculptures can be made anywhere - at the kitchen table, in an armchair in front of a fire or in a deck chair out in the sun. The finished set looks fabulous displayed on a cake stand or as part of a display on your table, windowsill or dresser.
