Pictures for each recipe and the method is simple and easy to follow. The spiral-bound book makes it even easier to lay it flat while cooking. More books, please, Ms. Chikiamco! 1 of 1 people found the following review helpful. Great cookbook for Filipino dishes! By Jenn R There are so many different versions of

filipino dishes, but this cookbook is really great for the basics. If you haven't learned from your grandma yet, the recipes in here will definitely hold you over until you get a chance to visit her. Or if you're not filipino and you know filipino food is delicious, you should totally get this and impress all your friends. The instructions are incredibly easy to follow and all the recipes have pictures (I hate cookbooks without pictures). There's also some brief history of filipino cuisine, which I found really interesting. 0 of 0 people found the following review helpful. This is a great cookbook! By TauterAsh I attend a Filipino church, and have tasted many Filipino dishes. This cookbook faithfully reproduces the food I have come to love. The recipes are easy to follow and if you so desire can be tweaked for a personal taste preference. I highly recommend it!
