By Mary Elizabeth Middleton I bought this book as a Christmas present for my sister and it ended up being exactly what I was looking for. I wanted a book that had a little of everything: information on how cheese is made, descriptions of the different kinds of cheese, wine pairings, and recipes. But this book has so much more! Not only does it discuss wine pairings (red, white, rose, sweet), but also pairing cheese with champagne, beer, ports, and a bunch of other drinks. There is a section on how to prepare a cheese board for sampling and how to throw a cheese party. The recipes look fabulous and the pictures are beautiful! I looked at a lot of wine and cheese books on-line and almost bought a different one, but am so happy with my choice! I would highly recommend this book for anyone who loves cheese and wine. 0 of 0 people found the following review helpful. If you want to learn about cheese, this is the book for you! By Lauren Great Book with lots of

information. I got it for my father for Christmas one year and he uses it all the time! The pictures are lovely and vibrant; very artistic. Shows a great variety of the many different types of cheeses, how to pair them with food and wine. Overall a great book, and a great gift that keeps giving. 2 of 2 people found the following review helpful. Seems nice...By HispanamI bought this for my Daughter; she is a vegetarian, and I thought this would be perfect for her life-style. Her Husband seems to like it too, choosing some recipes he might like to try, with the right wines, of course...The book offers many recipes and pairings with wines. I think it is a very good choice.
