Flatbreads Flavors is much more expensive but a much better book of recipes.3 of 3 people found the following review helpful. Flatbreads from Around the WorldBy BlackfeatherThis is a cookbook that I have had for some time. I wanted to include extra recipes with a flatbread/tortilla griddle that I was giving for a gift over the holidays, and this one is the book I chose. It has great bread recipes with instruction on using the flatbread griddle. It also has recipes for dishes that traditionally accompany the flatbread you choose to create.0 of 0 people found the following review helpful. Five StarsBy Adam M.This is a great litle book.
