was drawn to this title by the colorful cover - great looking pizza, but inside all of the pictures are black white. Hard to visualize some items. When I started to actually read the recipes I was confused by the temperatures cited for the oven, until I figured out they were in Celsius vice Fahrenheit, a search for a note identifying that but nothing listed (even the temps listed just identified 220 degrees). As well a bit of editing to correct the spacing and typo's would be appreciated. We will try a few of the recipes and update this review - but at first review eh. 0 of 0 people found the following review helpful. great crust and home made pizza By Rusty Out of the thirty recipes I like about ten of these. I have a recipe I love but I did not know how to make the dough for the crust. With this book I now can make my own crust and home made pizza just got better. Thank you and enjoy your pizza and enjoy your day. 1 of 1 people found the following review helpful. Careless proofreading By Kindle Customer I would have preferred that both Celsius and Fahrenheit be given. But 204 C is ridiculous and makes me wonder what else is incorrect.

Flavorful Pizza Recipes 101: The Best Pizza Cookbook with 30 Different Recipes is really the 'Pizza Bible' that every pizza lover should have at home. This pizza cookbook teaches the basics as well as the different varieties of pizza. If you love practicing making pizzas at home, then you don't need any other pizza cookbook than this pizza bible.
