Cookbook should test recipes carefully before printing!By CaliCathyThis cookbook on the wonderful food of Indonesia should have been tested before publishing. The proportions listed for the ingredients in the recipes were off. I was disappointed in the cooking results as I spent a lot of time and money shopping for the ingredients. Very disappointing. It's better to look at cooks making gado gado or gulai tempeh on you tube. The other book in the Periplus series, The Food of Bali, which seemed promising, had similar flaws.

Also known as The Spice Islands, Indonesia offers a varied and fascinating cuisine. Included are many familiar dishes such as Satay, Gado Gado, Nasi Goreng, and more.
