A SUPER CHARMING PIE MASTER..By kibby lee savannah Watching John Michael Lerma on Food Network was a delight....and inspired me to order this pie-excellent book.....i just wish it was autographed...such is my admiration.John is both funny and passionate about his pie-baking.....and he was wearing these big brown beads around his neck..i thought it was his trademark. He tells a great

story of how it all began from his throat sickness and his rise in the baking world. I haven't started baking yet, but am so very excited to do his award-winning 'coconut cream dream pie', and the mango custard pie'.. and several others on my list. Who doesn't love pie...and when John's baking he instills the passion and creativity into you to 'pie forward'. John is a great writer and storyteller so the book is great on all points. I hope to get him to sign my book in person and relate to him my experiences from his book. Thank you John....my prayers are with you. P.S...I'll be ordering a second copy....so's I don't get any food stains on 'er'. 0 of 0 people found the following review helpful. One of the best cookbooks you will ever read. By Wendy Pederson Not only recipes, but lots of heart in this cookbook. John Micheal was a really great guy with a huge heart. Snap this up before they disappear due to his untimely passing. 0 of 0 people found the following review helpful. Must Have By Sadie I had just started looking for a new core set of cookbooks when I heard that John had passed. People were talking about his books, his pies, and about how wonderful John was in general. This book is crafted with love. You will not be disappointed.

Accessible, inventive, and easy-to-follow instructions give mouthwatering results in the form of a perfect slab of lusciousness every time.
