However, the book was incomplete since it lacked the twine, fabric, and gift tags. I guess I will have to make my own. Considering the price and the excellent shipping, I really did get

everything I need for easy and practical gifting.0 of 0 people found the following review helpful. This recipe book is awesome!!By Lulu61I love these books! My order came in quickly and am looking forward to making more "homemade" gifts. I have had nothing but compliments from people who I have given these gifts too! All the recipes are easy and fun to put together. Just makes sure when it says to use wide mouth jars, you do that! I would highly recommend this book as well as the sellers!1 of 1 people found the following review helpful. I really like the ideasBy KCassI made copies of the recipes and created party favors for my bridal shower. The cookies were simple to compile and tasting good. I would recommend putting the temperature down to 300 because the cookies cooked faster on the edges and bottom then the top. It arrived within the window.

This book is filled with recipes to make your own gifts. Each mix fits into a quart jar. The book even includes tags complete with recipient directions with each recipe. Just cut it out, personalize and attach to the jar. Fun to make and affordable, gifts in a jar make great gifts for neighbors, teachers and friends!
