The book also includes instruction cards which can be attached to your gift. This added bonus saves a little time, plus they are super cute. I didn't love this product, because the recipes require far too many ingredients. I was looking for at least one or two gift in a jar ideas which only had 5 ingredients tops. This product was not the one for me.0 of 0 people found the following review helpful. Share with othersBy R.MThe best thing in these little books is that you can share them with a friend or family.Thats the fun part.
