Michael Gallagher : Gourmet Cuisine Island Style before purchasing it in order to gage whether or not it would be worth my time, and all praised Gourmet Cuisine Island Style:

Hawaii is an island paradise for its beautiful scenery and its delicious food. Nowhere else in the world can you find the wide assortment of fresh foods from the land and ocean that make for exciting innovated culinary creations. Add to that the unique ethnic diversity of the islands' population originating from Asia, Europe, America and the South Pacific, and you have a distinctive cuisine found nowhere else in the world. Hawai'i chefs are especially fond of using fresh tropical fruits in their cooking. The flavors of these fruits are preserved in products that are easy to use in creating the delicious foods of paradise.
