But I make my two guys, Cliff Ollie, lots of dog bones from this recipe book. They love them! Their favorite is "Pizza, Anyone?" Or maybe it's my favorite because it smells so great while the bones are baking. I had to buy some Brewer's Yeast, and occasionally I'll pick up some bran or a different flour (brown rice flour - who knew?), but by and large, these recipes take things I have around the house - even leftovers! And I feel like I'm giving my guys snacks that are really good for them. I highly recommend this book if you're thinking of making some healthy treats for your doggies.2 of 2 people found the following review helpful. yummy healthy dog treats that are easy to makeBy Frances SinclairThis is a cute book with loads of healthy treats for dogs. My 7 year old granddaughter and I made the bacon variety and all the dog samplers loved them. We tasted them and they weren't bad and much healthier than the people food we often eat. I noticed that some recipes called for raisons which we are now advised NOT to give to dogs (book was written some time ago).

We'll be using this book alot!0 of 0 people found the following review helpful. Excited !By SharferjcCan't wait to try the receipes in here. They look awsome. The book I got was used but still in good shape. there was a marker to a good one so guess it might be first ...ty

Now your dogs can say goodbye to the cardboard taste of commercial dog bones! This unique cookbook is full of wholesome, natural treats you can make in your bread machine. The recipes are healthy and easy to prepare, and you probably have many of the ingredients already. There are recipes for treats made with chicken broth and beef broth, as well as nonfat (for the possibly overweight dog), and vegetarian recipes. Author Sondra Macdonald has tested her recipes extensively on dogs of all sizes and shapes, and her dog biscuits taste great!
