My only reservation is that it covers a lot of territory, so if you are visiting somewhere specific, you may need an additional guide since it covers only the highlights of any given locale.0 of 0 people found the following review helpful. An invitation to wanderlust!By JourneymanThis book is the perfect companion to a British adventure. The pubs could be destinations themselves or could fill in those midday breaks and evenings with local color.0 of 0 people found the following review helpful. Five StarsBy jay frederickFast service. Item as advertised. Thank you!

A practical guide that takes readers around the very best public houses in Britain and celebrates the pub as a national institution
