I really like Thai food and have eaten at a number of restaurants in several cities. The recipes in this book fall at about the 80% level in comparison to my enjoyment of professionally cooked Thai food. Thank you Yupa.1 of 1 people found the following review helpful. I was absolutely delighted to find that Yupa had finally put her amazing ...By J. NemonAfter major excavations through my disordered recipe-book to find Yupa Holzner's dog-eared Pad Thai Instructions were met with frustration, I was absolutely delighted to find that Yupa had finally put her amazing recipes to text for the lucky masses -- Me. Several years ago, I was fortunate enough to enroll in a Thai Cooking Class taught by Yupa Holzner. I'm a fluent cook, adept with many types of cuisines, but the dish I am most lovingly asked to bring (in bulk) to events is Yupa Holzner's Pad Thai. Generally, I follow my whims with a recipe, but Mrs. Holzner makes the "Hoy Paloy" of Pad Thai, this Foodie is forever thwarted from any lesser method. Yupa's other recipes are scrumptiously memorable as well. Amidst my collection, this Thai Cookbook is a must-have!1 of 1 people found the following review helpful. Simply delicious!By S. BrownI have loved Thai for years now, ever since my dad started cooking it for the family. Being in college, I have now had to cook for myself. To re-create the Thai

dishes, i went out to buy this book and am very glad i did. Every recipe i have made from this book has so far been excellent, ESPECIALLY the green curry. I swear it tastes EXACTLY like the restaurant's green curry. I used to eat out at a thai restaurant at least 1-2 times per week, now i never have to when i can create the same dishes for cheaper at home. Thanks Yupa!
