Not only does it give recipes for natural cleaning with everyday products like vinegar, baking soda, etc...it also gives green product lists for those wanting a faster, more convenient

cleaning method without making homemade such as Mrs. Meyers and Seventh Generation. This book is also terrific as it's literally indestructible and waterproof! Use it and abuse and use it some more.0 of 0 people found the following review helpful. Good book to have on hand4 of 4 people found the following review helpful. Great book!By Cris StoneI bought this book after a glowing recommendation over at the Apartment Therapy: Green site. I thought that this would be just a collection of cleaning recipes and tips for my sensitive skinned, allergenic self. However, it is so, so much more! This book really breaks down the real meaning of "green" cleaning, explores the ingredients in "normal" cleaning products and reveals their effects on the environment (and you), and it also helps you create and make a habit of a regular green cleaning plan. A must for any home!

Green Clean is the definitive, step-by-step guide to cleaning better while using natural, safe products. Room by room and stain by stain, the book offers non-carcinogenic strategies for cleaning deeply and more efficiently. In a unique, waterproof DuraBook format, Green Clean breaks environmentally conscious cleaning into simple principles and easily mastered routines, with beginner, expert, and advanced techniques that let readers set their own goals and develop their own cleaning plans.

About the AuthorLinda Mason Hunter, formerly an editor with The Des Moines Register and Rodale Press, has authored several books, including The Healthy Home, which the New York Times dubbed "a sort of Whole Earth Catalog for the home."
