will definitely be doing it again and again and again over time. The recipes are delicious as are the tips. Thank you, Victoria, for yet another great book. 1 of 1 people found the following review helpful. Healing Miracles By Gayle A Lighty This book greatly assisted me in answering lots of questions about regaining health and the means to make it happen. The author tells how the body will heal if given what it needs to get well which is lots of foods with nutrition. Great book for anyone who truly wants to change and take charge of their health (no matter what disease one has) because miracles can and will happen. I am taking responsibility for what I am eating nowadays and know I will get the results I desire. 1 of 1 people found the following review helpful. Excellent as other books of Victoria Boutenko By Sarah Shvetskaya Excellent as other books of Victoria Boutenko. Everything she writes, is her own experience. (Now she noted that lack of B12 she found in organic and fresh egg yolks) and many other hints.
