PolskyI have owned this cookbook and given it as gifts to friends who like to cook very rich and homey baked food. My husband loves the cream pies (coconut and banana options) and I find the fruit cocktail pie an amazing and easy pie to make and take to pot lucks. There are main dishes and side dishes as well as wonderful breads and cakes. The cakes have been a source of awesome birthday cakes as good as the local bakery (and much better than the grocery store bakery cakes). If you are looking for a book that reminds you of Grandma's home cooking (real ingredients, not low fat), then this is the comfort food cookbook for you.0 of 0 people found the following review helpful.
