I've learned a lot from this book as a novice wine drinker. I keep referring back to it as I get more experienced. A lot of good information without being overwhelming. I've also bought it to give as a gift.0 of 0 people found the following review helpful. like fine wineBy CustomerIf you want to get into wine but you don't know how to start, this is the book for you. It's informative but simple to understand. Just note that in order to

have the best experience in reading this book, it would be nice to have different types of wine stored in your house for "practice." If you're worried about spending too much for wine bottles, don't worry because you'll learn in this book that good wine doesn't have to be expensive. 0 of 0 people found the following review helpful. The BEST easy read to give you all you need to know on Wine! By Sarp Uzkan I LOVE, LOVE, LOVE this book! It was such an easy read and entertaining! I read it on a recent vacation (the only time I have to read books!), and simply enjoyed it! It was such an easy read and provided sooooo much insight! We've been to Napa/Sonoma about 8 times now and I still learned a lot and... Now, I know the real details on why it is what it is! Great job Melanie! Thanks for putting things into perspective and writing for people like me who are always on the go and making it easy to understand! - Janet Uzkan
