KrauseI love this book because the recipes are simple and I can cook them in a brief time. The food tastes authentic and delicious, like what I've had in India. I'd highly recommend it for vegetarians who want an Indian flavor and don't want to labor for hours in the kitchen.4 of 5 people found the following review helpful. Indian CookbookBy I. I was introduced to it by a Siik teacher and healer who stayed at our house when we had a bad case of bronchitis.He went to a nearby health store and bought this book, came back to our house and started cooking for us. Very soon, we felt much better! He left the book with me and I use it often.This time I was hunting for it for a friend who is just interested inthe cooking...and I found it on .
