It's a great simple cookbook. Recommend the fish chops recipes and all the Indian sweet recipes.0 of 0 people found the following review helpful. A little gemBy Rachel A. MarshallI bought this book at a rummage sale in Houston about 20 years ago and had no familiarity with Indian cooking at the time. I had no trouble finding the ingredients and the instructions for the recipes were very clear. I have to say that the author, if these are based on her own recipes, is or was a really good cook. The dishes are varied and tasty and it has been a favorite in my collection of cook books for years. I have since purchased a few other Indian cook books, but the dishes don't turn out as good as these. This book is a little gem.
