**John Parkes : Home Brewing: Self-Sufficiency (The Self-Sufficiency Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Home Brewing: Self-Sufficiency (The Self-Sufficiency Series):

Simple jump-starter for new home brewers By Eric HI picked this up at my local library and thought it was an excellent introduction to home brewing. It had just enough history and detail to give you a good base understanding of the brewing process and basic ingredients. It's not the end-all be-all of brewing, but it doesn't claim to be. I would definitely recommend this for someone who is new to home brewing or is considering home brewing.

This new handbook book includes everything you'll need to brew a variety of beers at home, from the equipment and techniques needed, to inside secrets from a professional brewer. John Parkes, an experienced brewmaster, explains how anyone can produce delicious beer with the help of just some basic equipment and a few key skills. Those new to home brewing will love the easy-to-follow instructions; adept home brewers will be delighted by the original recipes. Made without unnecessary chemicals and additives, the beers featured here will appeal to anyone seeking a more self-sufficient lifestyle—and they taste great! About the Self-Sufficiency Series: More and more Americans are becoming concerned about living a healthier and more environmentally-friendly lifestyle. Whether it's moving to the country and starting over on a whim or just making city-living a little simpler and easier, the "Green" movement is changing the way we live our day-to-day lives. Skyhorse's new Self-Sufficiency handbooks are meant to help—offering advice on what to do, how to do it better, and how to save money as well. This is a beautifully-illustrated series made even more beautiful because its goal is to help everyone live in a more earth-friendly fashion.

Clearly and concisely written, and pleasantly produced illustrated... This is a great, accessible little book to take you from no home brewing experience at all, well into experimenting with a range of recipes and styles, before you'll need to buy anything else... I would heartily recommend it to newbie home-brewers. About the Author John Parkes has had a lifelong fascination with beer and in 2006 set up his own traditional beer-brewing company, Red Rock Brewing.
