The writing style seems so very old and British now, but the content is just as good!0 of 0 people found the following review helpful. If you want a good comedic read about old brewing stylesBy Shawn WinigmanIf you are looking to learn how to brew, don't buy this. If you want a good comedic read about old brewing styles, then absolutely get this. Bettter books on the market.By Bradley Braasch DDSI owned this book before and bought it again thinking there was more to it. There are much better home brew books on the market now.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing many of these classic works in affordable, high quality, modern editions, using the original text and artwork.
