By K. Scanlon I think perhaps \$3 or \$4 would be more appropriate for this short book that is more like a how to make wine pamphlet. It's useful, but very small and somewhat overpriced. Also there is approx 2.5 inches of white space all around the type to make the book appear larger than it really is. It may be very helpful, will update my review based on content if it packs a punch content-wise.

By Max This book contains all the necessary information to make your own wine distilled (no pun intended) into a dense package. It goes over all of the gear you will need to make your own wine (which is actually pretty cheap) and it contains a few good recipes. I am excited to try out the Syrah recipe out since it is my girlfriends favorite type of wine.
