From Parragon Inc : Indian (Cooking School) before purchasing it in order to gage whether or not it would be worth my time, and all praised Indian (Cooking School):

So far I've made about half a dozen recipes from it, and all but one have been mediocre at best, lacking the intensity of flavour so common to Indian food, and often turning out bland. The cookbook does have wonderful photos, but following the recipes as written usually results in a dish that looks quite different (sometimes in both coloration and composition) than the one pictured.Beef Madras is one recipe from Cooking School Indian that stands out as being deliciousmdash;it is what one might expect of an Indian cookbook. However, with flavour critically lacking in so many recipes, I cannot recommend this cookbook.For those looking to learn how to cook Indian food, Entice With Spice: Easy Indian Recipes for Busy People is a vastly superior choice, with every recipe full of flavour and clear, easy-to-follow instructions. And, like this cookbook, Entice with Spice has photos for (just about) every recipe.1 of 1 people found the following review helpful. great pictures, but need info re recipesBy readerThe book has a picture for each recipe, but needs a description of each recipe.. I did do this by googling the name of each recipe and finding out what it is, description of the dish and where the recipes originated from!
