Indian Delights CookbookBy CamisraI received the book in a timely manner and great condition. However to my dissappointment there was almost 10 blank white pages in the middle of the book and also pages where pictures were missing. I can't tell if the blank pages were missing pictures or recipes. It's been 4 years since I moved out of South and was totally delighted when I purchased his book and am still content on keeping despite the missing pages.0 of 0 people found the following review helpful. fantasticBy jol206I love this recipe book! a nice blend of traditional with some definite local south african influences. Not all recipes have english subtitles which can make it a little more challenging to quickly find a recipe. but overall it is wonderful!
