I love her style, whimsy and top tips for baking the best cupcakes and bakes. I only wish she'd open a shop in California! The book is full of great recipes, most of them seen on her youtube channel.

One thing I wish though is that the book was spiral bound as it is difficult to keep open without propping it up. Minor detail. Otherwise, the book would be a great addition to your recipe collection!0 of 0 people found the following review helpful. Adorable little book!By FFFFI am a HUGE fan of Jemma and Jamie so when I found out she had a book, I knew I just had to get it! So far I have made her chocolate cupcakes and her vanilla buttercream. I have made her buttercream more than once and it has now become my go-to recipe. I made the mistake of not using it once and that other recipe was horrible compared to hers! It wasn't bad, it just wasn't what I had gotten used to by using Jemma's technique and recipe.Jamie's Food Tube the Cake Book is a small, cute book full of fun recipes. There are some that I probably wouldn't make (like the Rosemary Honey and Yogurt Load) but that's only because I don't care for those flavors. If you are a fan of Jemma, I would recommend this book! The price is right so even if you just get it to read, it's totally worth it.0 of 0 people found the following review helpful. Five StarsBy Linda L. Stovallso many great ideas and written so anyone can make them
