**Consumer Guide : Japanese Cooking Class Cookbook** before purchasing it in order to gage whether or not it would be worth my time, and all praised Japanese Cooking Class Cookbook:

0 of 0 people found the following review helpful. Mom approvedBy G. CarsonI have had this book for years....recipes approved by my Japanese mom! Bought this one for my son instead of copying pages.0 of 0 people found the following review helpful. This is the Best in Basic Japanese CookingBy Peggy S. ObaThe recipes in my family were not written down. O-baa-chan simply cooked and we never asked how. Now it is possible to recapture the flavors of my childhood with this book. Some of the recipes might need a little tweeking...my family comes from Southern Japan and likes things a little on the sweet side. But the basic sauces and ingredients as there...add and subtract as your family likes it!!!0 of 0 people found the following review helpful. ... of the rare foreign cuisine cookbooks in English with excellent, authentic (non-westernized) recipesBy Marc HowardOne of the rare foreign cuisine cookbooks in English with excellent, authentic (non-westernized) recipes. I was very surprised. We have Japanese family members so speak from a first-hand place. Many of the recipes are simple and quick to make. They cover everything from sushi to homestyle cooking to restaurant fare. I highly recommend this book, especially if it's the only Japanese cookbook you'll ever get. We often give it to friends and family who want to know how to cook Japanese food.
