1 of 1 people found the following review helpful. easy to follow, with some restaurant quality recipes! By Desert Gypsy I married into the Japanese culture and this book is one of my favorite gifts. Being exposed not only to authentic Japanese home-cooked cuisine lovingly made by my in-laws but also having lived in NYC with access to some of

finest Japanese restaurants as well, I've been lucky to taste some of the very best dishes one's palate could imagine. This book provides basic recipes for some of the most well known favorites from Japan like chicken teriyaki, steamed wontons, sukiyaki, sushi rice+rolls and many others. These recipes have become the gold standards that we enjoy over and over again - I've tried "fancier" books and fancier recipes but haven't found a single cookbook I can say I like better or use more often. Highly recommended for those that want SIMPLE, \*great\* recipes for standard Japanese favorites. 1 of 1 people found the following review helpful. My favorite Japanese cookbook. By Edward G.
