Great gift for anyone or a low-cost way to keep up with your own craft beer exploration. One page per beer. Nice and succinct. The prompts/titles for the spaces you write your thoughts (name, brewer, likes/dislikes and more mind-grabbing thoughts) allow you to write your reflection quickly and it does not distract from conversation. Sometimes, it creates one. There is enough space on it for the more detail-oriented. I plan to keep using mine!1 of 1 people found the following review helpful. Unique, Creative, Fun Personal Beer JournalBy CustomerA very unique find! Can be used as your own craft beer journal. It would be a wonderful gift for any beer tasting event or beer drinkers who try a variety of beers but need someplace to keep track to help remember what they liked. There is an area to take notes on 100 beers, as well as your own personal notes about flavors, pairing, etc.0 of 0 people found the following review helpful. The "Beer Snobs" Journal!By CyberdroidHow many craft beers have you enjoyed and wished you could remember where? An excellent way to track the many craft beers tried throughout the course of your travels. A veritable Passport of brewpubs and breweries. Great for craft beer enthusiasts and home brewers alike.

Keeping Up with Craft Beers is a handy journal for recording your craft beer tasting experiences. The increasing choices and variety of beers with clever and sometimes similar names can make it hard to keep track of the delights and disappointments found on tap and in stores. You can list and score 100 craft beers as well as note breweries, brewpubs, and beer festivals you have or want to visit. Suggestions for use include designating one journal for a favorite brew pub that offers a large variety of beer and to keep separate journals for breweries visited and sampling done, and for beer festivals attended. Its size makes it easy to keep with you and store in your backpack, purse, or glovebox. Great gift for the craft beer lover in your life.
