Kevin Zraly : Kevin Zraly's Windows on the World Complete Wine Course: New, Updated Edition (Kevin Zraly's Complete Wine Course) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kevin Zraly's Windows on the World Complete Wine Course: New, Updated Edition (Kevin Zraly's Complete Wine Course):

However, the scan-codes don't work with an iPhone, which was really disappointing, nor did some of the codes work when put directly into a computer's web browser. I bought the updated version of the book precisely because of the scan codes, so I was pretty bummed. Coulda saved 10 or 15 bucks. Otherwise, definitely recommend the book.1 of 1 people found the following review helpful. Video links don't workBy oanaiFinally started reading it.Looks good so far content wise, but the QR codes, for which I had to download a Microsoft app on my iPhone (stupid design, should have been the standard QR code), no longer work - video content taken down. The links don't work either. Why would the publisher take them down if the book is still being sold... dumb.I searched a bit and it seems they haven't worked for several years.0 of 0 people found the following review

helpful. Just too much money but good overall. By Customer Too expensive for what I received. Especially when I found out the brand new ones were cheaper. My fault should have researched it better before purchasing. Thought I could get audio by scanning the bar codes throughout the book. None worked. Passed the introductory sommeliers course so paid itself off. :) just was broke at the time. Felt pretty gilded
