And I fancy myself a good cook (well, family and friends say so) and this book gives you great recipes without a laundry list of ingredients -- most of which you can't find, much less pronounce.If you like the flavor of Chinese food, buy this book. You will not regret it.3 of 3 people found the following review helpful. Fast, Easy, DeliciousBy mistymorninbooksAs a beginner at Chinese Cooking this book is perfect for me. Easy recipes, lots of pictures. Try the Wonton Soup...became my husband's favorite after just one try (and he used to say he hated chinese food).

Book is used and has been withdrawn from service from a Library. Book has a Library Binding and the usual Library Stamps, Stickers, Card Holder, Library Markings. May or May Not have a Dust Jacket.
