Lori Smaltz : Little Black BEER JOURNAL before purchasing it in order to gage whether or not it would be worth my time, and all praised Little Black BEER JOURNAL:

* POCKET SIZED * Holds 50 beer drinking experiences. Contains brief reference material for appearance, aroma, taste, mouth feel, finish and overall impression. On the left page are places to write in brewery name, date, beer, style, size, cost, apv, ibu, and check boxes for whether or not the beer came from a bottle, can or draft. The rest of the page

is for writing notes about the review of the beer. The right side contains a scorecard type entry, just circle the selected items that apply for each category of Appearance, Aroma, Taste, Feel, and Finish. Great gift idea!
