By Stephanie Garvey We're working through the cookbook and love it so far! 1 of 1 people found the following review helpful. easy to read, pictures and great instructions By i22027 Kernersville NCI received this book from my sister who lives in Bangkok. She indicated that it was very easy to follow, had a lot of pictures and the ingredients were available at asian grocery stores. It would be your first thai cookbook to refer to when you want your thai meal. You could then adapt your recipes to your preferences. I will be cooking more meals from this book. Definitely a keeper.

Each title in this series is both a cookbook and a photographic essay of people and places. The series encapsulates the flavours of the world's most exciting and popular cuisines and explores the colourful settings in which food is sourced, cooked and enjoyed. Each book contains a selection of authentic recipes suitable for the home cook.
