Doctor Kirschner sites his experience with the healing of many seriously ill patients, including various types of cancers, via juicing and a decent diet. He also lists his recommended ingredients, such as carrots, celery, spinach, cabbage and appleswhere cancer involved (with carrots always being dominant). Also see the book at , "Curing Cancer with Carrots" by Ann Cameron. CarrI found this book 30 years ago and have read it through at least 20 times and will continue to do so. I have several good books on juicing but this is my choice because it is short and loaded with useful information borne of experience. The case histories are interesting and compelling. Dr. Kirschner was no shade-tree mechanic.
