Patrick Witton : Lonely Planet World Food Indonesia (Lonely Planet World Food Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet World Food Indonesia (Lonely Planet World Food Guides):

1 of 1 people found the following review helpful. Shame the series is no longer in print!By RonThese Lonely Planet Food Guides represent excellent value and are very comprehensive as a first introduction to a foreign cuisine. Shame the series is no longer in print.0 of 0 people found the following review helpful. A Good OverviewBy Wyoming

SnowmanLonely Planet's "World Food: Indonesia" is an excellent place to start learning about Indonesian cuisine. It's not a cookbook, it's an explanation of both what you'll find to eat and how the diet reflects upon the culture. I highly recommend this book for someone wanting to start learning about how to eat in Indonesia.

This guide to Indonesian cuisine covers the vast culinary repertoire of these islands. It covers: a bicycle tour through local producers - the making of rice wine, soy sauce, tempeh and tofu; buying fish in Pangandaran; Indonesian family life and festivities; and food that appeases the spirits.

This new World Food book explores the delicious but simple cuisine of the Indonesians. Entertaining, opinionated and contemporary in style, these full colour, pocket-sized guides are for people who live to eat, drink and travel.
