**Gordon Rock : Macarons Cookbook: All about Cooking Macarons** before purchasing it in order to gage whether or not it would be worth my time, and all praised Macarons Cookbook: All about Cooking Macarons:

2 of 2 people found the following review helpful. This is a very poorly written cookbook. Some recipes ...By ChristineK This is a very poorly written cookbook. Some recipes are written with (presumably) American measurements (rather than Imperial?); some recipes are in metric. The recipe for pistachio macarons has "raw pistachios" in the ingredients list that somehow turn into "toasted pistachios" in the recipe directions. Self-published books, as this book, obviously is, should be flagged as such in the book description. Professional proofreaders and

other staff at reputable publishing houses would never have produced such an unprofessionally written cookbook.0 of 0 people found the following review helpful. Lots of colors and flavors.By CustomerThese cookies have always looked way too difficult for the home cook. I'm happy to see that the directions are easy to follow, if you take them one by one. All the flavors are amazing.0 of 1 people found the following review helpful. More than I expectedBy C. Price P. PriceGot exactly what I wanted and paid for. A cheap pair of ear buds that I carry in my bag as spares or that I can freely lend or give to someone wanting a pair.

Macarons started off as a French recipe and in no time they travelled all over the world and made their place in the hearts of everyone. Those colorful small delights are hard to resist and the taste and crunch they offer is what sets them apart from all the other desserts. This Macarons cookbook covers multiple recipes for macarons and shows how you can take multiple twists on the basic French macaron recipe. Each recipe comprises of one main ingredient which gives the chief taste to the macaron. Add in some food color of your liking and make them bright and eye-catching. We don't stop there, in our Macaron Recipe Book we have also included some recipes like milkshakes and desserts which you can make from macarons so this is quite a versatile cookbook when it comes to satisfying your sweet-tooth cravings. Cooking Macarons has just become more fun and delightful!
