ColbertHow disappointing to find the measurements are all in European metric and ounces - you won't find directions for a 1/3 cup of this or 1 1/2 cups of that, etc. All my baking implements are standard US measuring cups. I don't have the patience to measure out 3.5 oz of sugar and 2oz of flour, .3 oz baking soda and 20ml milk etc etc. The recipes sound good, but I doubt I will ever try one.0 of 1 people found the following review helpful. You will become MAD about muffins with this bookBy Kay SThis is a fantastic book for anyone looking for both standard and interesting muffin recipes. The recipes are given full colour photographs with very easy-to-follow step-by-step guidelines. There is even a section at the beginning actually showing each of the basic steps needed to bake muffins from scratch. With this book you can go from just ingredients to delicious mouth watering muffins in under an hour (including cooling time so you don't scorch your mouth!) with very little effort. The variety of recipes in this book is fantastic, with some very "out there" savoury ones that I probably will never try, but if you want to impress your friends, then go ahead! I would heartily recommend this book even to a relative cooking novice, you just have to follow the instructions. And for the

price, you really can't beat it.

These are quite exceptional and original recipes, created by one of the most talented bakers in England. Hers is a lifestyle title that simply adds zest to living. Muffins are easy and quick to bake. And some of the best of them aren't sweet. Fresh Pesto, Olive and Basil is a wonderful savoury muffin to serve at dinner. In this book every recipe - sweet and savoury - gives you such clear instructions that you can't go wrong. You can easily understand why your customers will buy this book. We all know that baking is a strong and growing book market. Yet in today's fast-moving lifestyle, we don't always have the time or inclination to bake and eat a whole loaf. But a quick delicious muffin to suit the occasion, and to share with a friend or two - that's different!
