Basic Asian TreasuresBy Floral SymphonyI'm surprised no one has reviewed this one, so I thought I better comment even though it may now be out of print. I've owned a copy for several years and keep it fondly for much loved recipes that I go back to. The book contains a jumble of healthy recipes from south Asia to East Asia, to south-east Asia. Each is a treasure, and each is explained and photographed well to give great results. They are simple to prepare given basic spices and Asian ingredients, so its the kind of book you can open up and cook from to put something Asian onto the table that is yummy and easily achievable.Despite more complex Asian books on my shelf I use this one as a basic.

Wonderful recipes, step-by-step guidance and personal anecdotes from one of the world's favourite cooks. Includes all the guidance you need on ingredients and techniques.
