A friend talked me into loaning it, then they moved and that's the last I ever saw of it. So, when I finally decided to hunt it down and re-purchase....I didn't hesitate. I not only enjoy the great recipes, but the exact instructions and stories that go with some of these make it an enjoyable read. I'm so glad to have this back in my kitchen, where I can guarantee, it never remains on the shelf. 0 of 0 people found the following review helpful. an excellent read By Irish Angeli love the books for reading, I have several of her other books, I love the desserts and things people have forgotten about and I LOVE she actually takes her sunbeam with her when she travels and speaks. its a fantasitic blast to the past for sure, which is why I got it. 3 of 3 people found the following review helpful. Can't go wrong with Maida EVER By Kindle Customer Maida can do no wrong. She explains exactly where to put your racks in the oven, why you need to mix this before that, right down to the nitty-gritty. Wonderful. I have several of her books on various topics and never fail to learn something new after my decades of baking. All the recipes turn out exactly as presented. She is very thorough. Makes gourmet look like everyday comfort food.
