Many times we have cookbooks that only have one good recipe. This one isn't like that. I have baked and enjoyed every recipe in the book! I will admit that one of the brownie recipes is a family favorite and is enjoyed regularly by my household. Recently one of my daughters got it wet and it was put away like that w/out my knowledge, thus molding and ruining my copy. I jumped right on here and ordered me a new copy. This is a cookbook that is worth it's weight in gold and well worth having.0 of 0 people found the following review helpful.
