I'm not a fan of fondant at all, but the photos were so lovely...! It's a nice book for my cookbook collection, but I probably won't be making any of the cakes with the fondant decorations. Still, the book does have lots of charm and many recipes others will likely enjoy. It's worth a buy.3 of 3 people found the following review helpful. Save Your MoneyBy MPFI bought the book because I was interesting in the process of creating the mini-cakes from beginning to end. There are too few designs in the book, only 17. The author's approach centers around fondant and paste which while cute is not very edible. All of the designs are also so chunky and cartoony. There is nothing delicate about any of the cakes other than their size. Honestly they strike me as looking more like play-dough creations than actual food. I would browser this one in the bookstore, but leave it there.4 of 4 people found the following review helpful. Don't waste your moneyBy Luvs2BakeWhat a waste of money...Really thought it was a cute idea to give 'mini

cakes' as gifts, but not much to the book for the price and what little is there is pretty unimpressive. Haven't tried the few cake recipes yet, maybe that will be the saving grace. But, from just the mini cake decorating photo examples, I am TOTALLY unimpressed!

The cakes in this book may be mini, but their impact is BIG! Every delectable treat here is as appealing to the eye as it is to the tongue. Start with one of the basic recipes-a Madeira Sponge or Chocolate Cake, for example. Then let the how-to photos and easy-to-follow directions be your guide as you decorate cakes for Mother's or Father's Day, for Valentine's Day, for the arrival of a new baby, and many more special occasions. Just a glimpse of one of these adorable designs will bring a sunny smile to anybody's face!

About the Author Noga Hitron is the founder of Cookies for Fun, which sells decorative cakes and cookies to gourmet food and fashion shops around the world. She is the author of Fairytale Cakes (9781600591945) and The Art of Cakes (9781402761249).
