The miniature presentation also makes it easier for all those people watching their weight. Each one is about two bites, enough but not too much. There are some unique combinations for fillings too.1 of 1 people found the following review helpful. Great gift ... for yourself as wellBy apriles78Great little book for the price. There is a picture for each recipe, which I find useful. One thing I would change is I would have the ingredients listed in a bigger font. Otherwise, the recipes looked fairly easy to make and tasty. I did not see any savory recipes, but the sweet recipes looked mouth-watering. I gave this one as a gift, but liked it so much, I ordered another for myself.2 of 2 people found the following review helpful. DissapointingBy Pat WilsonThis was not what I expected when I ordered it. As I live in elderly housing was looking for some special small tart and pie recipes and this didn't meet those requirements. Seemed very time consuming and tedious.
