When I say tiny, I mean like small even for a cupcake topper. However, if that's what you're looking for, then this book is great. I did not think it was worth the price.0 of 0 people found the following review helpful. gift for my daughter businessBy s Secret stockholder and investergift for my daughter, she bakes and decorate cakes and cupcakes0 of 0 people found the following review helpful. Nice little bookBy D. LarkinI actually bought this book to get some ideas for clay items that I wanted to make. I has quite a few ideas that can be used with cakes or clay. I only wish there were more.
