1 of 1 people found the following review helpful. Love these recipes!By MichelleAll the recipes in this book use a cake mix as the base and you donrsquo;t even need a bowl to make any of them. The ingredients are added right into the pan and then mix, bake and enjoy. One thing I really like about the recipes is that my tween daughters are enjoying making them and having fun learning to cook. I loved making a jello cake by just mixing and layering the ingredients in the pan. Irsquo;ve never made jello cake like that before, but it was really fast and easy.The Very Berry cake uses frozen berries, which I always try to have on hand and we loved it. We even ate it for breakfast the next day! Not only

are there a lot of creative and varied ideas using all kinds of cake mix flavors, but I've been able to come up with some of my own ideas, too, by making simple substitutions. I've also used sugar free cake mix and had no problems with that at all. I've only used the sugar free yellow cake mix so far, but I really want to try the chocolate one with some of these recipes, too. Lots of delicious and easy ideas!

Here's a whole new batch of quick, easy dump cakes to savor. With no dirty bowls and no tedious mixing time, you can toss together a scrumptious dessert on short notice. Try a light 3-ingredient wonder like Pina Colada Angel Food or go for more gusto with the decadent Scotcheroo. Experiment with twists on tradition when you make Strawberry-Rhubarb or Cranberry Delight. Ready for something deliciously unique? Sweet Potato or Lemon Poppy Seed will fit the bill. Any way you dish it, these cakes will be favorites. No Dirty Bowls. No Extra Steps. Just Dump Bake
